PROFESSIONAL SUMMARY

Network Security Engineer with 4 years at Wipro supporting Zero Trust security and enterprise network operations for a 250,000+ user global environment. Hands-on with Zscaler ZIA, ZPA, ZDX, Client Connector, DLP, SSL/TLS inspection, URL filtering, ZTNA onboarding, incident management and change execution across security, network, identity, Linux, Windows Server and cloud infrastructure.

TECHNICAL SKILLS

- **Security Platforms:** Zscaler ZIA, ZPA, ZDX, ZIdentity, Client Connector, SWG, ZTNA, DLP, SSL/TLS Inspection, URL Filtering, Cloud Firewall, Browser Isolation
- **Network Security & Infrastructure:** TCP/IP, OSPF, BGP, STP, VLANs, NAT/PAT, ACLs, DNS, DHCP, VPN, LAN/WAN, Cisco Catalyst, Aruba, Wireshark, Packet Capture
- **Cloud, Systems & Identity:** Azure, AWS, GCP, Cloud Networking, Windows Server, Active Directory, GPO, Entra ID, SAML/SSO, MFA, Cisco ISE, Cisco DNA Center
- **Operations & ITSM:** ServiceNow, ITIL Incident/Change/Problem, Major Incident Bridges, SLA, Exception Handling, RCA, Netreo, 24x7 Operations
- **Technical Tools:** Linux, Shell Scripting, systemd, Log Analysis, Git, Java, Spring Boot, React.js, REST APIs, SQL/MySQL, VMware vSphere, Containers

PROFESSIONAL EXPERIENCE

Wipro Technologies — Kolkata, India • Nov 2022 – Present

Network Security Engineer – Zero Trust, Zscaler & Cloud Security • Jan 2024 – Present

- Support Zero Trust security operations for a **250,000+ user global environment** across Zscaler ZIA, ZPA, ZDX and Client Connector.
- Configure and troubleshoot **ZIA policies** for SSL/TLS inspection, DLP, URL filtering, cloud firewall, PAC files and exception workflows.
- Onboarded **600+ private applications to ZPA/ZTNA** by defining application segments, access policies and App Connector placement.
- Delivered **1,500+ security incidents and exception requests with 100% SLA adherence**, ensuring fulfilment and continuity.
- Lead major-incident bridge calls, coordinating security, network, cloud, identity and application teams through restoration and follow-ups.
- Perform RCA using Zscaler logs, ZDX telemetry, packet captures, Linux logs and identity data for access, latency and policy issues.
- Execute production security changes through **ServiceNow ITIL change control** with rollout, validation and rollback planning.

Network Engineer – Infrastructure, Linux & Operations • Nov 2022 – Dec 2023

- Configured and troubleshooted enterprise LAN/WAN services including **OSPF, BGP, STP, VLANs, NAT/PAT and ACLs** across Cisco Catalyst and Aruba environments.
- Administered **Linux servers** for diagnostics, service management, log analysis and operational automation supporting network uptime.
- Performed Cisco IOS upgrades, monitored alerts through Netreo and supported authentication/network-access operations using AD and Cisco ISE concepts.

SECURITY ENGINEERING PROJECT

Zero Trust Secure Web Gateway & ZTNA Policy Engine • Self-built • BITS Pilani Capstone

Java, Spring Boot, React.js, MySQL, RabbitMQ, ClamAV, Linux, Podman, Azure, Microsoft Entra ID

- Built a production-style **Secure Web Gateway and ZTNA policy engine** with transparent proxy interception, TLS inspection, private CA, URL categorisation and policy enforcement.
- Designed block pages, file-control inspection, malware sandboxing, browser isolation and quarantine workflows to simulate enterprise SWG behaviour.
- Integrated **Entra ID SSO**, Graph API sync, JWT REST APIs, audit logging and Azure Linux VM deployment with systemd-managed services.

CERTIFICATIONS & TRAINING

- **Certifications:** Zscaler ZIA / ZPA Zero Trust Security Administrator • AWS Certified Cloud Practitioner (2026) • AWS Certified CloudOps Associate (in progress, Sept 2026)
- **Training:** Cisco Networking Academy – Networking & Cybersecurity • Palo Alto Networks – Cybersecurity Foundations

EDUCATION

- **B.Tech, Information Systems** – BITS Pilani (Work Integrated Learning Programme)
- **Diploma, Computer Engineering** – Government Polytechnic, Kharsawan
